SATURDAY, JULY 4. American delights to honor by keeping it in some the 20th instant. sort as a holiday. And, as has been well observed, the principles of government that were enunciated on the 4th of July, 1776, belong not to Americans exclusively, but to humanity everywhere. What is the use of trying to make a bugaboo of our domestic debt of \$350,000, when it is well known that the Government could pay off this debt any day, by the sale of Government property in this city? Let us make it \$3,500,000; if we can always have as much internal improvement, and as good sound property to show, as we have now for our present indebtedness. There are croakers about public debt and public enterforeign dollar, or a foreign hand; who are as narrow in soul as the unexpanded indigenous nature, and who are panders to native prejudice, and na- evening, commencing with Monday next. tive narrowness of political or financial scope of thought, without the native docility and amenability to superior enlightened influence. This is simply the number of native males employed on plantations, whereas the number of able bodied males in the kingdom is estimated in the report at 7,680. /The Editor also in commenting upon the statement that our decline may reach a point when our population will not the ensuing term : be considered as " sufficient to constitute the basis of an independent state," considers such utterances as injudicious, in view of our desire to effect a foreign loan. But our present necessities are our Australasian & American Mail future advantage. Whatever may be said of our present decline, when it can be said that our Archipelago once contained "eight-fold its present population," and is capable of producing 200,000 tons of sugar, along with wool and other products to the amount of \$25,000,000-there is a large inducement and a good basis for foreign capital to be employed in developing the opportunities which this country affords. And this foreign capital may be induced to come to our aid, in consequence of a full and fair showing of our necessitous condition, along with our capabilities. Either the great maritime states of Europe, interested in the the purpose of being laid before the Assembly, but Pacific, will be induced to aid us in the maintain- the subject of which it treats had been already deance of our independence; or America, desirous | cided upon by that Body. to save us from the necessity of an appeal in quarters that might prove prejudicial to her policy, will favor those accommodations of trade and finance which our isolated situation have made necessary. It is idle to say that our needy situntion will be some great power's opportunity. No power is seeking such opportunity,-not certainly the great Republic of America, whose wise statesmen at this day desire the preservation of our autonomy; and they will be aroused to consider our situation, and to discriminate in our favor, when our declining state and condition, caused by our isolation, are plainly set forth.

NOTES OF THE WEEK.

THANKS.-We are indebted to Pursers Hillmann of the Cyphrenes and Hodgkins of the Tartar, for files of papers and memorandum of cargo and passengers.

The party will probably return to town FRESH PEACHES .- We were favored by Captain Thomas Long, the other day, with one of the prettiest clusters of red-cheeked peaches we ever saw, this side of the State of New Jersey. They were grown

in Pauca valley. There will be a "Missionary meeting" at Regular Packet for Kona and Kau, the Fort Street Church to-morrow evening, in place of the usual lecture, when the Rev. J. F Pogue will give some account of his recent voyage to the Marquesas Islands, as Delegate of the Hawaiian Board, after which Mr. H. J. Taylor

will be ordained. STEAMER DAYS .- Monday and Tuesday of this week saw the arrival and departure of both steamers-from and to San Francisco. The consequence was that on those two days, the town put on a lively and business-like appearance, only to flatten however on Wednesday. THE "ADVERTISER" ABROAD. - A friend sends us

a Connecticut paper containing a long and interesting account of the ceremonies at the laying of the corner stone of the New Lodge building of St. John's Lodge, No. 8, A. F. & A. M., Stratford, Conn. Among the newspapers deposited beneath the corner stone were copies of the Pacific Commercial Adventuser, of Honolulu.

FLUSH .-- The actions of some of the passengers by the Cyphrenes, bound South on Tuesday evening last, brought to recollection the "flush" times of "the fifties," when Californians overburdened with gold were quite common. The returning Colonists appeared to take a great deal of pleasure in scattering half sovereigns and sovereigns for the crowd of native boys and men on the wharf to scramble for. We saw one five-year old Hawaiian with several gold pieces and one shilling in silver, and he seemed to think the most of the latter.

THE POSTAL CONVENTION between the Colonial Government of New South Wales and the Hawaiian Kingdom, is published in full in the Gazette of this week. The terms of the Treaty resemble much that now in force with the United States. The rate for letter postage is fixed at sixpence in New South Wales and 124 cents (why not either ten or fifteen cents?) in this Kingdom, for letters weighing a half a necessity for new facilities for the business.
